

## Quality Control Certificate

**Product name:** LilliTest Influenza A H9N2 Antigen

**Product Description:** Chicken allantoic fluid containing inactivated Influenza A virus- subtype H9N2 (A/Quail/Dubai/302/2000).

**Product Presentation:** Glass vial with 1.0 ml lyophilized chicken allantoic fluid.

**Product Code:** V2041

**Batch Number:** H9N2AG03171

**Production dates:** March 2017

**Expiry Date:** March 2027

**Biological origin:** Barred Rock Chicken.

**Preservative:** No preservative added.

**Indication:** Reference antigen for the serological diagnosis of Influenza A viral infection caused by Influenza A virus- subtype H9N2.

**Reconstitution:** Reconstitute the lyophilized chicken allantoic fluid in 1.0ml of sterile distilled water.

**Storage:** Lyophilized product should be stored at +2°C to +8°C and reconstituted product should be stored at -80°C (in small aliquots, stability 1 year).

**Titre:** Haemagglutination Inhibition (HI) Test: > 1: 256

**Working dilution:** Optimal dilution should be determined by the investigator according to the procedure employed.

**Quality Control**
